I take pleasure in submitting my ninth annual report as Superintendent of Schools.

The school year 1956-1957 opened with the following teaching staff:

Mrs. Clara Merrick, Grades 6-8.

Miss Joanne Keough, Grades 4-5.

Mrs. Blanche Loch, Grades 1-3.

Mrs. Eleanor Henry, music teacher.

Miss Mary Shea, school nurse.

A third classroom teacher was added this year in the person of Miss Joanne Keough of Kensington. She is a graduate of Rivier College in Nashua and she did her practice teaching in the Nashua elementary schools. The additional teacher made it possible to reduce from four to three the number of grades taught by each of the other two classroom teachers, and also to reduce the numbers in each classroom to reasonable size.

The enrollment at the present time is as follows:

Mrs. Loch's R	m. Miss Keough	's Rm.	Mrs. Merrick's	Rm.
Grade 1	Grade 4	6	Grade 6	8
Grade 2	Grade 5	10	Grade 7	4
Grade 3 15	<b>i</b>		Grade 8	13
33		16		25

The small room off the main classroom at Brown's Academy where the fourth and fifth grades have been housed this year has served as a temporary classroom. However, it

is too small an area to house more than the sixteen students who are at present in the two grades and there are several disadvantages such as noise, difficulty of heating and the size of the area which make it unwise to use for more than one year.

As a result the School Board has requested the Trustees of Brown's Academy to renovate the basement room into a suitable classroom. In the opinion of Mr. Paul Farnum of the State Department of Education, who is responsible for school construction in the state, this could be done without too much difficulty. Mr. Farnum feels that this area should not be considered as the usual basement room because the floor is only about four feet below ground level. Also, the quantity of natural light is good due to the amount of window area.

This would seem to be a reasonable solution to the housing problem for the present.

Looking ahead to the future some years hence another solution to the housing problem could be to think in terms of joining in the formation of a Cooperative School District with other school districts in the area to build a Junior High School for the seventh and eighth grades.

An unofficial committee representing the districts of Brentwood, East Kingston, Exeter, Kensington, Newfields and Stratham has held several meetings to study this possibility. When you have heard the report given at the school district meeting on this study, I believe that the next step should be taken; namely, to appoint representatives from the district to form an official committee to continue the study of this proposal.

There appear to be certain advantages to this solution of the problem in the future both educationally and financially.

By the time such a solution to the housing problem could be accomplished it is very possible that the school en-

rollment for grades 1-6 would have increased enough to necessitate the continued use of the second classroom at Brown's Academy.

The Parent-Teacher Association dontinues to make worthwhile contributions to the school program. The purchase of a fine record player for Brown's Academy is greatly appreciated.

The graduation exercises and operetta and the Christmas programs were well done and the teachers and students deserve much credit for them.

I call to your attention the reports of the school nurse and of the music teacher and the tables which follow.

I again express appreciation to the citizens, the members of the School Board and the teachers for their continued support and cooperation.

Respectfully submitted,

RAYMOND A. HOYT, Superintendent, Supervisory Union No. 16.

# Report of Music Supervisor

To the Superintendent of Schools:

For many children entering the first grade, the musical experiences that they have in the school are among their first. It is true that radio and television give children the opportunity of listening to music, and this is good if the music is good. Fortunate are those children who have had a musical environment in the home during their pre-school years.

The importance of the classroom teacher in the school music program cannot be over-emphasized, for it is she who can provide richness in the lives of the children, as daily musical experiences for the pupils must be provided by her. Much help can be given her with a record player and some good records.

As music educators stress the importance of bodily response to music, much is done, especially in the lower grades, with this type of musical experience. Responding to music through various types of rhythmic activities, action songs, singing games, dancing and work with rhythm band are examples of this type of activity.

As many children have not found their singing voices when they first enter school, work to obtain this result is important.

In the third grade, work with tonettes is begun. This is valuable as a beginning for note-reading, and also often gives the pupils an interest in studying another instrument later on. A clarinet instructor recently told a new pupil that he thought that her work with the tonette in school had been a big help to her in learning to play this new instrument. It is true that the tonette and clarinet have similar features.

Learning the fundamentals of music, note-reading, partsinging, dancing, listening to music and music appreciation are also part of the music program.

At the graduation exercises in June, the operetta, "The Mikado", was presented by the students of Brown's Academy under the able direction of Mrs. Merrick.

In the fall new music books were purchased for the fourth through eighth grades. These books were truly needed and the purchase of them was greatly appreciated.

The P.T.A. purchased a record player for Brown's Academy. I should like to say that I believe there is no P.T.A. group more eager and willing to do things for the schools than the East Kingston P.T.A. A vote of thanks should go to them from all of us.

Previous to the Christmas vacation, a musical Christmas program was given by the pupils of the first five grades at the Town Hall.

In closing, I wish to thank Mr. Hoyt, the members of the School Board, the P.T.A., the teachers and the parents for their cooperation.

Respectfully submitted, ELEANOR HENRY

#### School Health Report

To the Superintendent of Schools:

During the past year, except for minor outbreaks of the usual childhood diseases, the health of the East Kingston children has been good.

Ninety-eight percent of the children have had two polio vaccine inoculations. At present there are no plans for a third shot to be given through the schools. It is suggested that parents contact their family physicians to make arrangements for this.

A surprisingly large number of dental needs have been taken care of this year. This helps to improve the dental hygiene picture of the East Kingston schools. It is much brighter than it ever has been in the past, but there is yet much left to be done in this phase of health.

A new Speech clinic, held once a week, has been established at the Exeter High School. Any pupil in Supervisory Union No. 16 who needs help in this line of therapy is eligible to attend this clinic.

It is again time to have physical examinations for all the children. This should be done at least every two years. Perhaps through the Parent Teacher Association or the School Board this can be done in the spring.

I want to thank all the teachers and the parents for their cooperation during the year.

Respectfully submitted,

MARY G. SHEA, R.N. School Nurse
